

Using Lean Methodology for Product Development

Razvan Telitoiu

razvan@sagepub.co.uk
@RazvanCT

SAGE Publishing

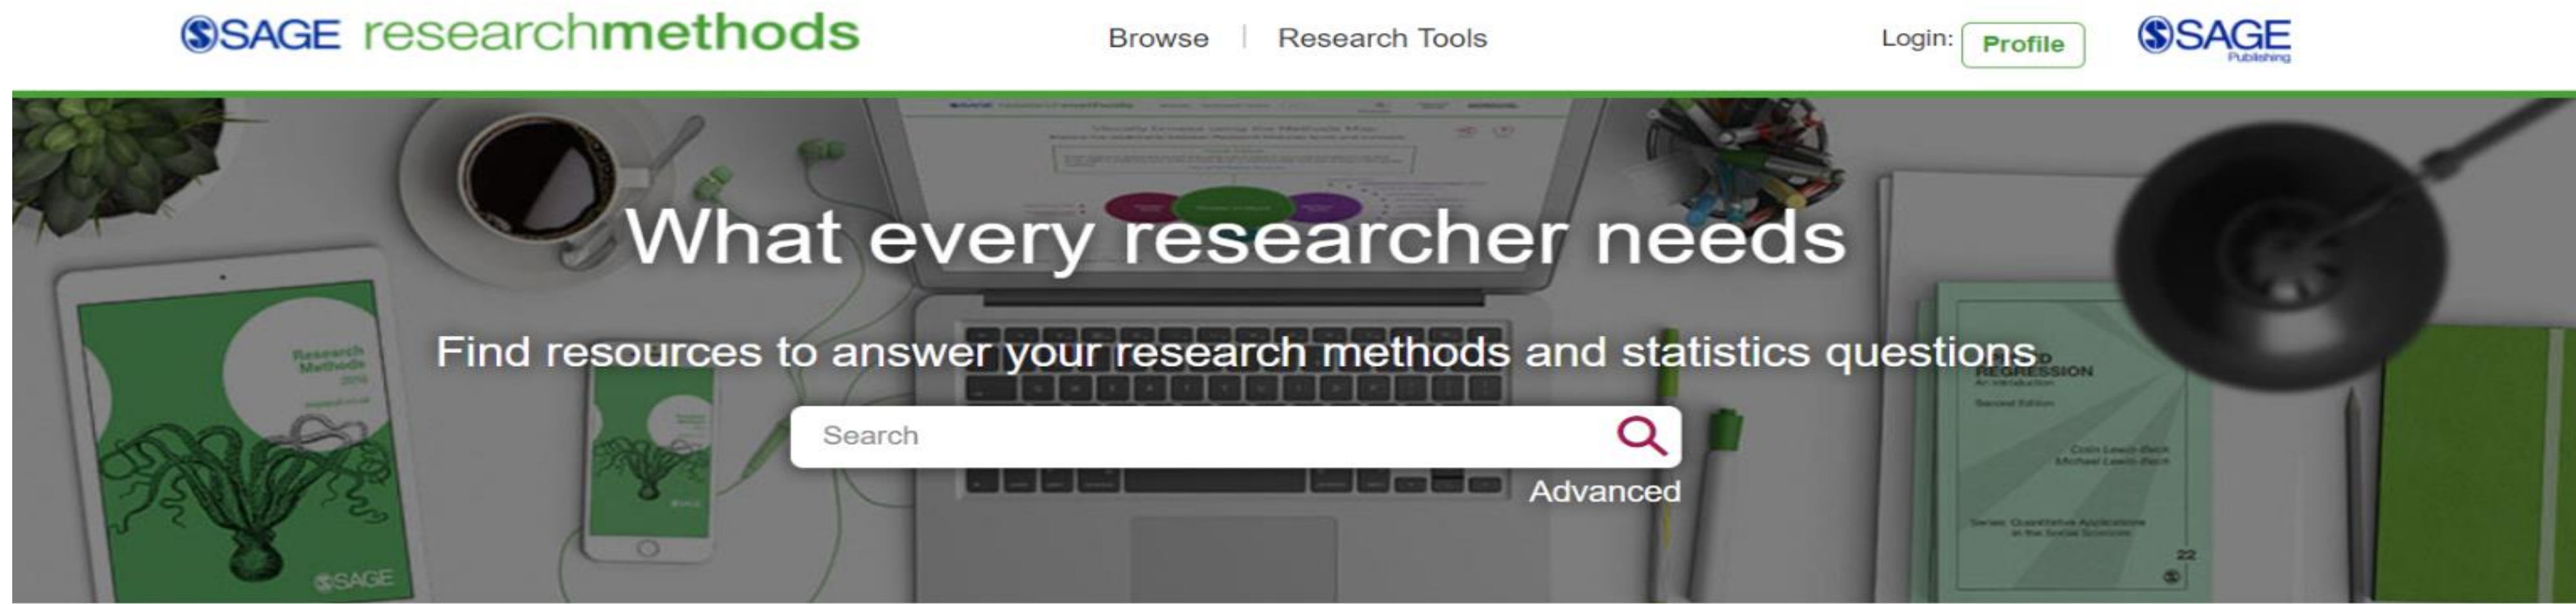

Founded in 1965

Independent

2,000 employees globally

5th largest journal publisher & fastest growing STM publisher

Research Methods is at the heart of what we do

Innovation Incubator

Established an incubator 2 years ago

Initially 3 people which has now grown to 14

Test, prototype, fail, test, prototype, build

@Eric Ries

Some of the tools we've used...

Lean Discovery Framework

This is the framework we're using to learn about potential areas of investment:

Portfolio

SAGE VIRTUAL SUMMER SCHOOL: DATA SCIENCE FOR SOCIAL SCIENTISTS

SIGN UP TO FIND OUT MORE

JUMPSTART YOUR RESEARCH

Introduction to Big Data *for Social Scientists*

This virtual summer school provides practical guidance on combining methods and tools from computer science, statistics, and social science. The course presents the key big data tools in language social scientists will be familiar with, with a focus on research questions, ethics and practical outcomes. You

Level: Foundational

Time commitment: 3 days / 4 hours per day

Cost: \$400

Fundamentals of Machine Learning *for Social Scientists*

This virtual summer school covers the fundamentals of machine learning methods and the methodology for applying them to real world social science analytics problems. The course outlines the stages involved in a machine learning analysis, and walks through how to perform them using the R programming language.

Level: Foundational

Time commitment: 3 days / 4 hours per day

Cost: \$400

Introduction to Python *for Social Scientists*

This virtual summer school introduces the Python programming language for social scientists. The course shows how to move from being an SPSS or R user to Python, allowing you to tackle social science data problems in a new way. Through practical examples and exercises, you will build up the skills needed to perform

Time commitment: 3 days / 4 hours per day

Cost: \$400

SAGE masterclass

Attend from the comfort of your own home or setting

There's no travel or hotels to book, saving you money and avoiding you having to take time off work and arrange cover to attend, and spending time away from your family.

All the expert interviews can be viewed from home, your setting, or anywhere with an internet connection.

Watch at your convenience

The expert interview videos will be available online so you can watch them at your own convenience. Each interview will be live from the time it's broadcast to the end of the Masterclass. You can watch the interviews completely free at any time during that period.

And if you get the All-Access Pass, you'll have access to all the interviews for a full year.

Once-in-a-lifetime speakers

You won't find such an incredible lineup of expert authors with in-depth knowledge at any other conference.

We, at SAGE Publishing, have hand picked speakers to make sure you get the full breadth of coverage on childhood: development, learning and psychology. You'll get insights from the latest research from our experienced authors.

High quality training for your continuing professional development - FREE!

For many practitioners it's so hard to get access to high quality CPD at a reasonable price. The SAGE Masterclass has leading experts who will make a real contribution to developing your understanding.

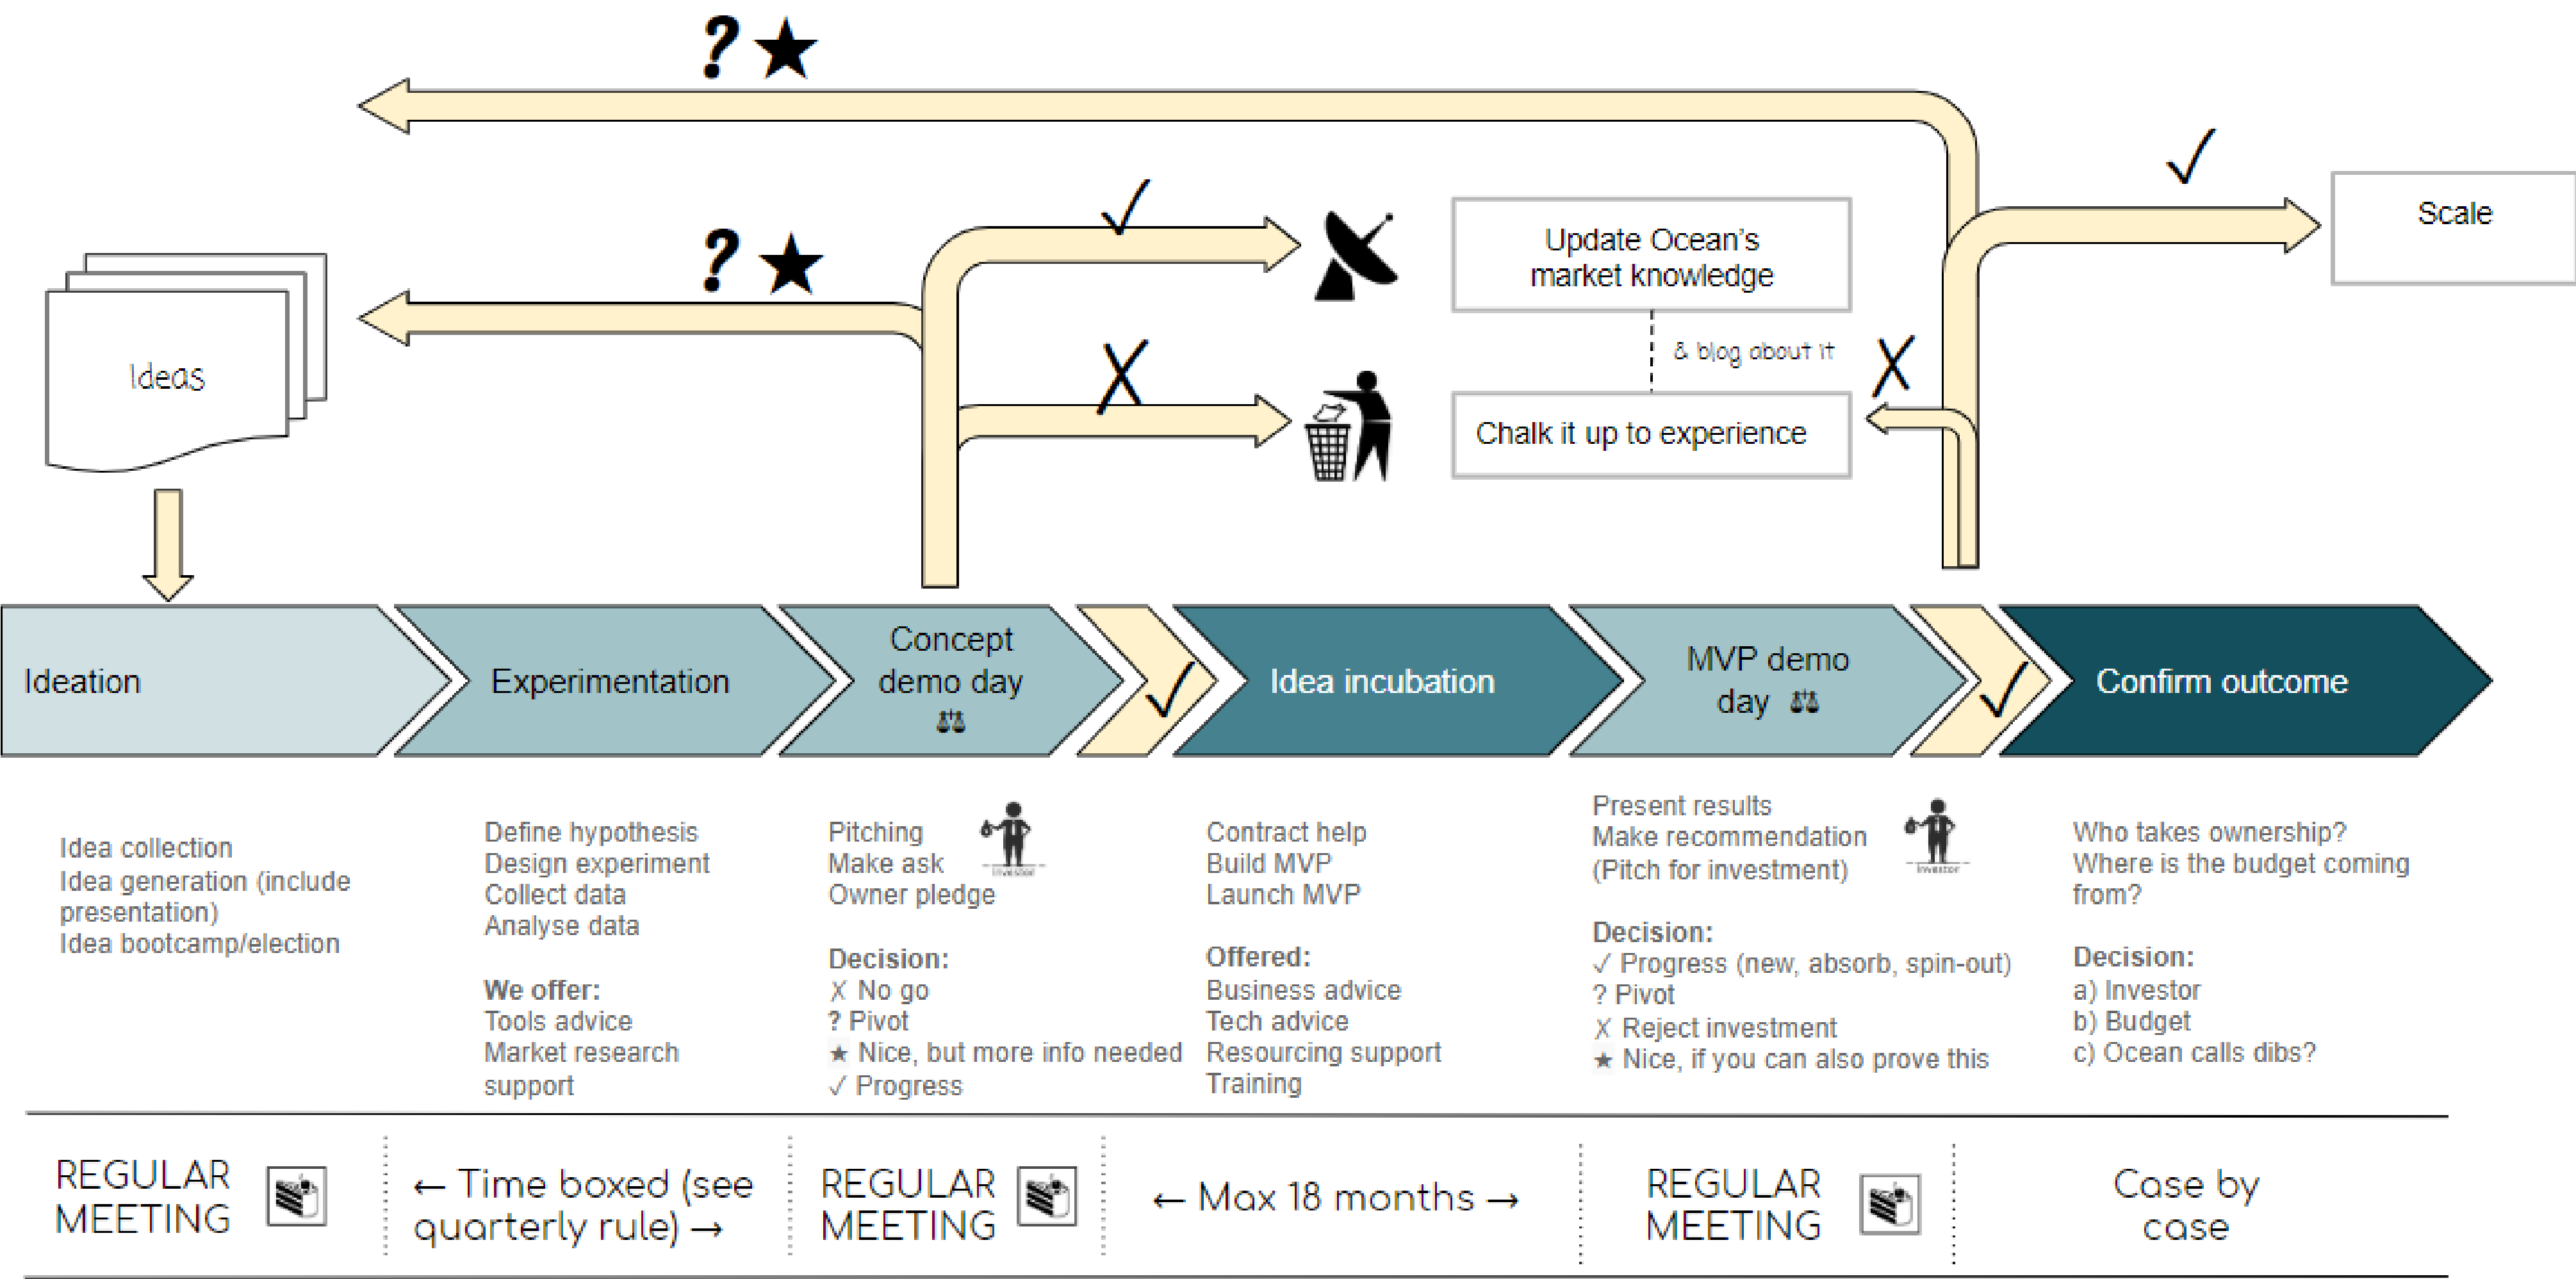

The insights and practical ideas from our experts will help you become a better practitioner and most importantly, deliver better outcomes for your children.

Data visualization masterclass
