

BIOGRAPHIES OF BREAKOUT SESSION PRESENTERS

Group C

NADIA CASAGRANDA is Subscriptions & Interlending Manager (Collections & Research Support) at King's College London where she leads the team responsible for the procurement and administration of the whole lifecycle of subscription print and electronic resources, and for the Interlending and Document Delivery service. Nadia has several years' experience of working with all aspects of e-resources management, and in particular with link resolvers and usage stats. She is currently a member of the JUSP Community Advisory Group.

GAIL CLEMENT is Library Administrator and science research librarian who currently serves as Head of Research Services at the Caltech Library. She leads a team of subject librarians, repository, metadata and licensing specialists who support knowledge creation, management and dissemination throughout the research lifecycle. Gail represents Caltech Library on the Organizational Advisory Assembly for the Research Data Alliance; as an Institutional member of the Committee on Publication Ethics; and as a member of the Overleaf Steering Committee. She is a certified Data Carpentry Instructor, specialising in research data cleaning and enhancement; data sharing; and citation and publication of all research outputs. As Coordinator of Author Carpentry – a researcher training programme in 21st century authorship and publishing – Gail collaborates with developers and researchers to create practical, hands-on and useful lessons in responsible, reproducible and reusable research publication. Gail's professional leadership includes membership on the Research Data Alliance-CODATA Legal Interoperability of Research Data Interest Group, mentoring researchers from developing nations via AuthorAid; and service on the Editorial Board for the Journal of Librarianship and Scholarly Communication (JLSC) where she co-edited the 2015 special issue on data sharing, data publication and data citation. She also serves on the License Review Committee and the Scholarly Communication Taskforce of the Statewide California Electronic Library Consortium.

BEV DELANEY is an eContent Advisor and member of the Content Licensing and Intellectual Property team at The Open University Library, based in Milton Keynes. She has ten years' experience in higher education content management and manages relationships with publishers, subscriptions, licensed use of resources with responsibility for accessibility, research and alternative users.

LORRAINE ESTELLE is Director of COUNTER where she is focused on improving the utility of usage statistics. She began her career in the publishing industry before moving to Jisc in 2002. There she became CEO of Jisc Collections, the UK's academic library consortium, where she also conceived and led research projects including the national e-books observatory project. She successfully won funding to develop shared national services for the UK academic sector including the Journals Usage Statistics Portal and Jisc Historic Text. Lorraine is also co-editor of *Insights: the UKSG Journal*.

LIZ FERGUSON is Vice President, Publishing Development at Wiley where she is responsible for developing Wiley's global journal programmes, subscription and open access, and leads Wiley's open access strategy. She also has a focus on data sharing policies and workflows that support researchers making their data publicly available. Liz is on the Board of Directors of Dryad, a member of the External Advisory Board of DataONE and has been on the organising committee of Conference on Open Access Scholarly Publishing since 2013.

KAI GESCHUHN holds a master's degree in Library and Information Science. At Max Planck Digital Library she works at the interface between licence management and open access. She is part of the negotiating teams for Max Planck's offsetting agreements and she promotes the OA2020, the INTACT project and the ESAC initiative aiming at the transition of the current subscription system to open access business models. Kai is co-author of the MPDL whitepaper 'Disrupting the subscription journals' business model for the necessary large-scale transformation to open access' published in 2014.

JOHN HAMMERSLEY has always been fascinated by science, space, exploration and technology. After completing a PhD in Mathematical Physics at Durham University in 2008, he went on to help launch the world's first driverless taxi system now operating at London's Heathrow Airport. John is now making it easier for scientists to collaborate and publish online as CEO and co-founder of Overleaf, the rapidly growing online collaborative writing and reviewing tool with over half a million users worldwide. He was named as one of The Bookseller's Rising Stars of 2015, is a mentor and alumnus of the Bethnal Green Ventures start-up accelerator in London, and in his spare time dances (and occasionally teaches) West Coast Swing!

LAUREN KANE is COO of the non-profit scientific publisher [BioOne](#). She oversees BioOne's sales programme and the creation of new financial and dissemination models that increase library collaboration and researcher access. In addition, she helps BioOne's more than 145 participating societies, museums and independent presses develop sustainable publishing strategies and maximise their publications' impact. An active community participant, Kane is a member of ALPSP's North American Steering Group and serves as co-chair of SSP's Organizational Collaboration Committee. With frequent collaborator Alice Meadows, she is the co-author of a *Learned Publishing* opinion piece on encouraging gender parity in scholarly publishing. Kane holds a BA from Georgetown University and an MBA from the University of New Hampshire.

TASHA MELLINS-COHEN has more than 15 years' experience in scholarly communications, across publishing houses and technology vendors, and a passion for digital technologies and the possibilities they open up for our industry. Her early career in STM publishing encompassed small start-ups, large societies and commercial publishers, and provided experience in both traditional subscription-based markets and open access environments. Tasha brings her focus on operational excellence to her role with HighWire, where she and her team of Business Analysts and User Experience Designers engage with customers' strategic goals to optimise publisher websites.

DAVID PEACOCK has managed the Content & Collections team at the University of Hertfordshire since 2011. He has worked in nearly every single library sector: research, public, health and academic. Between 1998 and 2011 he was the Regional Librarian for the NHS Libraries in the North East of England, where he was involved in the strategic co-ordination of libraries and e-learning. He has previously worked at the Universities of Northumbria and Sunderland. The team he currently manages includes bibliographic services and acquisitions and provides support for Library systems.

CHARLIE RAPPLE is co-founder of Kudos, which helps researchers, publishers and institutions to maximise the reach and impact of their research. She is also Honorary Secretary of UKSG, Associate Editor of Learned Publishing, and a blogger in The Scholarly Kitchen. Past roles include Associate Director of TBI Communications and Head of Group Marketing for Publishing Technology. She holds a BA from the University of Bristol and postgraduate MDip from the Chartered Institute of Marketing.

MARTIJN ROELANDSE (@mathein) is Head of Publishing Innovation at Springer Nature where he develops new ideas for publishing and author services. One of those is the recent launch of Bookmetrix.com, a platform developed by Springer and Altmetric that offers a comprehensive overview of the impact of a book by providing various book-level and chapter-level metrics all in one place. He is open for new publishing initiatives and pilots and keeps a close eye on new developments in the publishing world. Prior to joining Springer Nature he worked as a neuroscientist in Amsterdam and holds a PhD in Neurobiology from the University of Basel.

VIMAL SHAH is Research Information Manager at Middlesex University where he is responsible for developing repositories and other software systems containing research outputs, mapping the needs of researchers, reviewing policy, and developing processes for collecting, storing and managing access to research outputs. He previously held positions at King's College London as an Information Specialist for Social Science and Public Policy, as a Business Analyst on the King's Futures strategy transformation programme and, most recently, as Research Data Manager establishing and developing RDM Services. Vimal holds an MSc in Library & Information Studies (City) and an MA in Digital Asset Management (King's).

KARLA YOUNGS has 20 years' experience of working within the education sector, working to support the sector in developing and delivering digital resources for learning, teaching and research. This experience covers being responsible for Jisc services TASI and Jisc Digital Media, as well as associated Jisc projects and consultancy activity. Karla has led teams in developing applied research activities, information resources and training and consultancy to customers and clients across FE & Skills and HE, as well as the cultural heritage sector. Karla's current role is responsible for the strategic planning and delivery of the Jisc content offer to the FE & Skills sector.
