

Introduction to Elsevier resources supporting development of Library professionals

26th June 2025

Denis Reidy, Customer Success Manager, Elsevier

Agenda

The aim of this presentation is to gain insights into:

- Origin of Scientific Publishing & Current Scenario
- Role of a publisher (Elsevier) & how they support librarians and research
- Elsevier Resources Supporting Librarian Development

Origin of Scientific Publishing

- 1665: Publication of first scientific journal “*Philosophical Transactions of the Royal Society*”
- The society's council minutes dated 1 March 1664 ordered that “*the Philosophical Transactions, to be composed by Mr Oldenburg, be printed the first Munday of every month, if he have sufficient matter for it.*”
- Private venture of the Royal Society's secretary, Henry Oldenburg
- Still exist (as Part A and Part B)

THE ROYAL SOCIETY
PUBLISHING

PHILOSOPHICAL TRANSACTIONS

Philosophical Transactions is the world's first and longest-running scientific journal. It was launched in March 1665 by Henry Oldenburg (c.1619-1677), the Society's first Secretary, who acted as publisher and editor.

ISSN (Online): 2053-9223

ISSN (Print): 0261-0523

Origin of Scientific Publishing

“Philosophical Transactions of the Royal Society” already contained three key elements of a journal:

- Registration and archiving:

"We must be very careful as well of regist'ring the person and time of any new matter, as the matter itselfe, whereby the honor of the invention will be reliably preserved to all posterity"

- Dissemination

"...all ingenious men will thereby be encouraged to impact their knowledge and discoveries"

- Peer review

- “ ...being first revised by some Members of the Council of this Society .”

Scientific Publishing nowadays

Research output growth 2000-2024

Source: <https://scival.com>

- ~**10,000** scientific journal publishers
- ~**70,000** peer-reviewed scholarly journals
- **Publications increases @ ~3-4% per year.** Since 2021, > **4 Million** published documents per year.
- No of authors **increased 28.8%** over the 2020-2024 period, from **7.21M** in 2020 to **9.24M** in 2024

Information Discovery

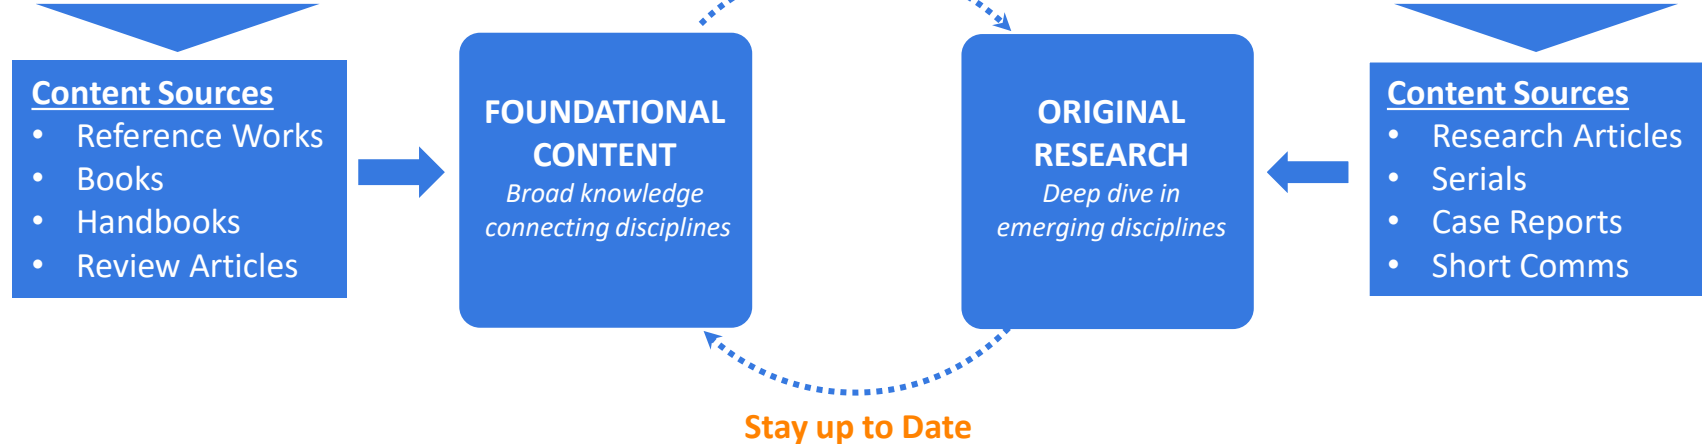

With an ocean of data surrounding you.. It takes logic, peer review, application and experience to achieve wisdom

To build knowledge, researchers and students need both Foundational Content and Original Research

- Established facts
- Baseline knowledge
- Multifaceted/Multidisciplinary
- Written by leaders in their field

- Latest research / new results
- Specialised knowledge
- Narrow focus, extreme depth
- Applying techniques

How Elsevier supports research excellence

- | | | | |
|---|--|---|--|
| 1 | Access to quality research content |  | <ul style="list-style-type: none">a. ScienceDirect: the world's leading source for STM researchb. Scopus: the world's largest abstract and citation database of peer-reviewed academic literaturec. Specialized tools to advance research- Reaxys, Knovel, EV, Embase etc. |
| 2 | R&D capacity building and training |  | <ul style="list-style-type: none">a. Building capacity through training and research workshopsb. Connecting talent and fostering collaboration by helping institutions identify possible research partnersc. Professional development of Librarians |

SciVal: a tool for visualizing research performance, benchmarking, developing collaborative partnerships, and analyzing research trendsb. Producing custom-tailored white paper reports using Elsevier's advanced data analytics capability |
| 4 | Raising visibility of researchers |  | <ul style="list-style-type: none">a. Increasing researchers' identifiabilityb. Showcasing researchers' workc. Broadcasting research through social networking services |

Elsevier resources supporting Librarians

Scholarly communication

Find librarian resources to effectively implement, report on and engage users with Elsevier products and to stay up-to-date on LIS and job-related topics

On this page you will find links to resources that will support you in these goals.

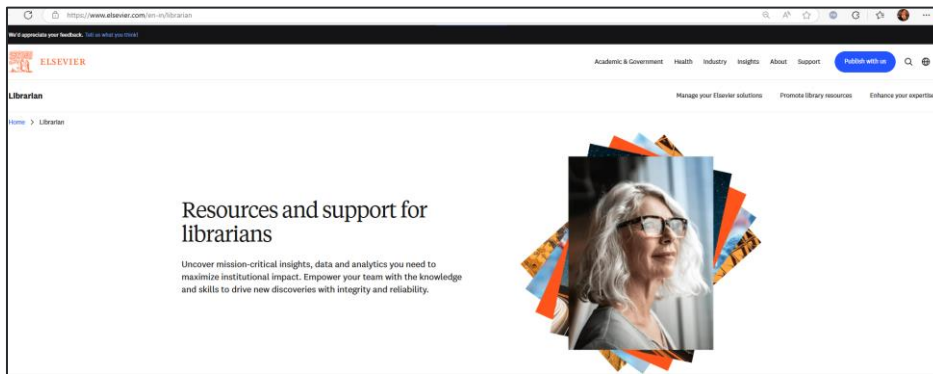

Professional development

What's new?

- **What if halving premature deaths was a new reality?** ➔ Join us as we explore what it will take to achieve this ambition in collaboration with research and healthcare communities
- **Introducing ScienceDirect AI:** Help researchers effortlessly uncover mission critical insights from trusted, quality peer-reviewed literature
- **Free GenAI Literacy Program for Librarians:** Develop AI literacy and confidently navigate new tools and technologies with this free e-learning certification program
- **Institutional Ordering Platform:** Institutional customers can buy access to ScienceDirect books and journals through our upgraded self-service platform

Featured resources

- **Elsevier LibGuides** ➔: Learn how to use Elsevier tools and databases to strengthen research capabilities
- **Library Connect Academy:** Test your knowledge about information literacy, research data management and more
- **GenAI Resource Hub for librarians:** Discover how to harness AI responsibly and equip your library with the right tools
- **Open access:** Learn about open access at Elsevier and our fast-growing offers
- **Transformative agreements:** See how consortia and institutions are benefiting from transformative agreements that deliver impact
- Browse the latest curated **journal** and **book** titles available on ScienceDirect. Sign up to be among the first to **receive notifications about new titles**.

Perspectives from impact makers in the librarian community

Case study

Preparing for a transformative agreement: Library leaders share their experience

Connect

The role of AI in library services

Connect

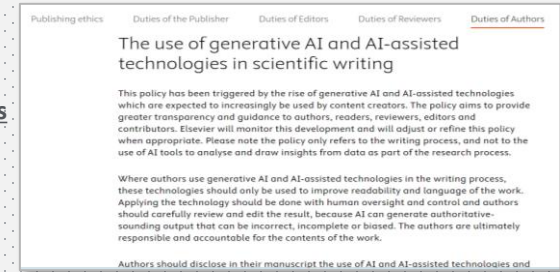

Open access essentials for librarians

How is the scholarly communication community responding to the rise of GenAI?

- Many universities, STM organizations, publishing ethics organizations such as COPE, learned societies and publishers have **created policies for researchers on responsible use** of (Generative) AI. We are **collaborating** to form **uniform and understandable guidelines** and are providing more context through **author webinars, online panels, and other events**.
- Some publishers do not allow the use of Gen AI under any condition, but most do allow authors to use the technology for a **defined purpose** (language and readability), if **properly disclosed**.
- Policies** are likely to be **refined** and **adapted** as the **technology develops**, and in **response to community feedback** as well as in response to **evolving legislation**.

We are establishing a framework for ethical and responsible employment of GenAI through policies and guidance

Elsevier GenAI Ethics Policies

COPE Position statement on Authorship and AI Tools

STM Whitepaper on GenAI in scholarly communications

Resources to support librarians around GEN AI

Library Connect Academy | New GenAI Module in Development

Overview

- Open, self-paced course hosted on the Canvas LMS.
- Focus on GenAI Literacy for librarians to support readiness to adopt new AI solutions.
- Incorporates R&L GenAI messaging framework.
- Being created in consultation with the ACRL president-elect, Leo S. Lo.
- **Modules:** AI Foundations, Risks & Benefits of AI, Responsible use of AI & additional resources.

Library Connect Academy

Resources for library and information science professionals looking to enhance their skills utilizing content developed by their peers.

Expected launch date: November 2024

Module on GEN AI for librarians

Generative AI in the Publishing Community

The rise of generative AI and AI-assisted technologies has led to new policies for researchers, offering transparency and guidance.

Generative AI in research evaluation

Virtual panel co-sponsored by Cell Press and Elsevier recognizing Peer Review Week.

Generative AI: Q&A

Could AI reduce the time from manuscript submission to publication? Does your author policy refer to AI as it is used in many fields in the research process, for example, to process data?

Generative AI: New policies, opportunities, and risks

The rise of generative artificial intelligence (AI) and AI-assisted technologies has triggered new policies.

Researcher Academy courses

Elsevier's Responsible AI Principles

1. We consider the **real-world impact** of our solutions on **people**
2. We take action to **prevent** the creation or reinforcement of **unfair bias**
3. We can **explain** how our solutions **work**
4. We create **accountability** through **human oversight**
5. We **respect privacy** and champion **robust data governance**

For more than a decade, *Elsevier* has been using AI and machine learning technologies responsibly in our services and products to help researchers discover and apply trusted knowledge: See our [Elsevier Responsible AI Principles](#)

Elsevier's policies for authors, editors and reviewers on Generative AI

Authors

- Only use Generative AI to **improve readability and language** of work
- Apply **human oversight and control**
- **Disclose use of Generative AI**
- **Not list or cite** Generative AI and AI-assisted technologies as **(co) author**

Editors and reviewers

- **Not upload the manuscript** into an AI tool- this may violate confidentiality and author's rights
- **Not upload peer review report or editorial decision letters** – they may contain confidential information as well
- Generative AI should **not be used to assist in the review, evaluation or decision-making process**

Figures, images, artwork

- Don't use Generative AI to **create or alter images** in submitted manuscripts
- **Exception:** Where the use of Generative AI or AI-assisted tools is **part of the research design or research methods**
- The use of generative AI or AI-assisted tools in the **production of artwork is not permitted** (but may in exceptional cases be allowed for cover art)

Please note the author policy only refers to the use of Generative AI in the writing process, and not to the use of AI tools to analyze and draw insights from data as part of the research process.

Policies are published on Elsevier's Publishing Ethics page:

- <https://www.elsevier.com/about/policies/publishing-ethics>
- Further guidance can be found in the [Elsevier Responsible AI Principles](#)

Research Data Management Librarian Academy

The Research Data Management Librarian Academy (RDMLA) is a **free online professional development program for librarians, information professionals, or other professionals** who work in a research-intensive environment throughout the world. RDMLA features a unique partnership between a LIS academic program, academic health sciences and research libraries, and Elsevier. Partner institutions include:

- 🏛 Harvard Medical School
- 🏛 Harvard Library
- 🏛 Simmons University
- 🏛 Boston University
- 🏛 Brown University
- 🏛 Massachusetts College
- 🏛 Northeastern University
- 🏛 Tufts University
- 🏛 **Elsevier**

- ✓ **RDMLA** curriculum focuses on the essential knowledge and skills needed to collaborate effectively with researchers on data management.
- ✓ The curriculum features **Eight Online Self-paced Learning Units**
- ✓ **Covers topics such as**
 - Foundations of research data management
 - Research culture
 - Advocating and marketing for RDM services in libraries
 - Project management
 - Overview of research data management tools etc.

Scopus/SciVal/Pure Certification Program for Librarians

Scopus®

Global Scopus Certification Program

6 module, free online course

Secure your seat in the next cohort

Are you looking to expand your expertise training and consulting users? The Scopus Certification program provides insight into research sources, collaboration and metrics that can support your work.

Pure Foundations Certification Program

5 module, free online course

Program Goals

- Enable you to get familiar with Pure via a comprehensive, structured-learning program
- Support you with enrolling and onboarding colleagues at your institutions and optimize the time spent on introductory-level training
- Ensure you get the most out of your Pure subscription

SciVal

Global SciVal Certification Program

6 module, free online course

Are you an existing SciVal user looking to improve your skills and take on more challenging tasks?

Or perhaps you wish to expand your understanding and use of SciVal to train and support others at your organization?

Join the free SciVal Certification online training program designed to empower you with the right set of skills and resources to answer these questions.

If you wish to join one of these programs, please write to us:

Lecture series 2025

The 2025 Lecture Series offers in-depth insights into Elsevier's solutions and databases, designed to maximize value for you and your academic community.

Each series of 3-6 lectures is structured around a particular solution or database and begins with a basic overview before continuing to intermediate topics. A subject matter expert will lead each session and facilitate a Q&A at the end.

Whether you want to attend individual lectures or the entire series, registration is easy through the following links. Recordings will be made available for those who register but cannot attend live sessions.

We hope to see you there!

Elsevier's tools enabling research on SDGs

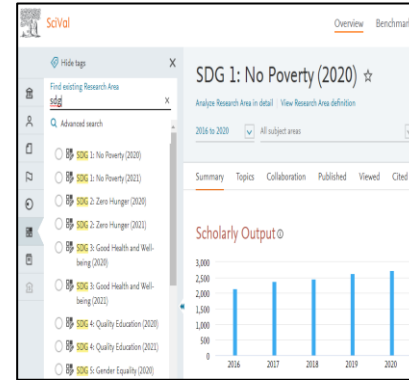

- As a multinational business and signatory of the UN Global Compact, RELX Group has a role to play in advancing the SDGs.
- The SDG Resource Centre showcases the latest in science, law, business, events and more that can help drive forward the SDGs
- The aim is to support the UN in implementing the SDGs and to broaden awareness and understanding of the SDGs for our customers, governments, researchers, companies, NGOs and individuals.

Pre-generated queries

UN Sustainable Development Goals 2020

1. No poverty
2. Zero hunger
3. Good health and well-being
4. Quality education
5. Gender equality
6. Clean water and sanitation
7. Affordable and clean energy
8. Decent work and economic growth
9. Industry, innovation and infrastructure
10. Reduced inequalities
11. Sustainable cities and communities
12. Responsible consumption and production
13. Climate action
14. Life below water
15. Life on land
16. Peace, justice and strong institutions

- ✓ **3,000+ journals, 18+ million articles**
- ✓ **39,000 e-books, including books, book series and major reference works**
- ✓ **Digital archives that reach as far back as 1823.**
- ✓ **Multidisciplinary content categorized into 23 Subject Collections**
- ✓ **Journals and books available for all SDG focus areas**

'We have the content; we have the international reach. We have the ambition, we have the people, and we have an incredible capacity to innovate. We can use all of that to advocate for better policies and better action to reach these goals.' The aim of the SDG Resource Centre is to do just that.

-Richard Horton, Editor: The Lancet

Appendix:

Scopus AI

The telescope: *From strategy to discovery*

- Bird's eye view of the full research landscape
- Make connections across research fields
- Great for research strategy and planning

What it's for:

- Find relevant studies and quick insights from curated peer-reviewed literature
- Gain insights into the various perspectives on a topic, its current relevance, and the experts driving it.
- Explore a topic to brainstorm ideas for the next research theme
- Get help for comprehensive literature reviews

Wide coverage: Scopus AI is a gateway into Scopus' comprehensive and curated **collection of data and abstracts** from Scopus, so you can get a quick overview in seconds.

ScienceDirect AI

The microscope: *From question to evidence*

- Deep dive into full-text content
- Synthesize evidence within papers
- Practical insights for research execution

What it's for:

- Synthesize evidence from within multiple studies
- Compare different experiments, to spot similarities and differences in results, methods and more
- Verify AI-generated assertions by reading the original source passage

In-depth information: ScienceDirect AI is a gateway into the **full-text** of millions of peer-reviewed articles and book chapters, making it the ideal choice for detailed analysis.
