

## **E-book: the new serial?**

Wednesday 9 November 2005

### **A seminar on e-books - business models, usage and marketing**

## **VENDOR SUMMARIES**

### **Cambridge University Press**

Cambridge University Press presents *Historical Statistics of the United States Online*, the numerical history of the United States. This reference contains over 35 thousand annual time series of quantitative historical information covering virtually every quantifiable dimension of American history: population, work and welfare, economic structure and performance, governance and international relations, all from earliest times to the present. Users of the online edition can search the data and notes in several ways; they can graph whole tables or selected series from tables; and they can download data for manipulation in spreadsheets or other programs.

### **Coutts**

MyiLibrary is quite simply the easiest and most cost-effective way to access tens of thousands of e-books, reports and other documents produced by many of the world's most authoritative Scientific, Technical, Medical, Humanities, Information and Reference publishers.

As well as books and journals from commercial publishers, such as Wiley, Springer, Taylor & Francis, Elsevier, Oxford University Press and many others, MyiLibrary also hosts and provides access to content collections published by the major inter-governmental organisations such as the International Atomic Energy Agency, the World Bank, the OECD, the International Labour Organisation, the World Health Organisation and the United Nations.

Now researchers, practitioners, academics, students and policy makers have access through one platform to some of the most up-to-date information in their subject areas of interest. A truly indispensable research and reference tool.

### **Dawson**

Our partnership with eBooks.com means we offer the eBook Library (EBL) platform to all customers. EBL gives libraries the chance to build a tailored collection of academic e-books for wide simultaneous access across an institution's intranet. To make the procurement process as straightforward as possible EBL e-books have their own individual records displayed within enterBooks.com for instant purchase and consolidation into the customer's existing Dawson account. Cross-links with print editions of the same book are also clearly displayed. eBook Library is dedicated to providing a wealth of academic content while exploiting the full benefits of new technologies.

### **ebrary**

ebrary provides the content and technology that make the research experience richer and more productive. We offer a growing selection of more than 60,000 titles in our repository from more than 200 of the world's leading academic, STM and professional publishers. ebrary currently has more than 600 library customers in more than 75 different countries serving more than 4 million patrons.

\* Subscription Databases for academic, public and government libraries under a simultaneous, multi-user access model. Choose from Growing, Fixed, Single Publisher and Custom collections.

\* Perpetual Access Databases - own custom databases that never require check-out or check-in. Choose from simultaneous, multi-user or single-user access.

\* ebrary Reader™ delivers pages to a patron's desktop page by page, eliminating cumbersome downloads.

## **Elsevier**

Books on ScienceDirect ([www.info.sciencedirect.com/books](http://www.info.sciencedirect.com/books))

ScienceDirect now offers unlimited simultaneous-user, 24/7 IP-based (+ remote) access to Handbooks, Reference Works and Book Series in many academic disciplines, fully linked to ScienceDirect's 7 million full text articles as well as externally via CrossRef. In addition to the existing Subscription model the Reference Works (from November) and the Handbooks are also available to purchase via an 'Upfront' model.

COUNTER-compliant usage statistics are available for all Books on ScienceDirect, accessible via a single website. Elsevier can also provide promotional material, including e-mail templates, to help you promote these resources to your Institution's users.

## **John Wiley & Sons**

John Wiley & Sons is an independent, global publisher of print and electronic products specialising in scientific, technical and medical books, journals, textbooks and education materials for colleges and universities, as well as professional and consumer books.

Visit the Wiley stand to learn more about the Wiley InterScience electronic book offering, OnlineBooks™, and reference works. Over 1400 titles are now available through a variety of purchasing options including a One Time Fee option or Flexi-subscription option. Discounts are available to the UK Higher Education community through JISC.

To find out more and for a demonstration of the OnlineBooks™ site visit the Wiley stand.

## **OCLC/NetLibrary**

As OCLC's eContent division, NetLibrary <http://www.netlibrary.com> represents a unique dual heritage: a trusted partner for librarians with a firm commitment to technological innovation on behalf of end-users. More than 90,000 titles and hundreds of global publishers represent a comprehensive collection of frontlist, newly published content. NetLibrary offers 24/7 access to your collection, both inside and outside your library. An online catalogue of all the eBook titles delivered through NetLibrary is available at TitleSelect <http://www.netlibrary.com/titleselect>. Use it to view and order individual eBook titles, to build your own custom title list and to submit your order online.

## **Oxford University Press**

### **E-books with a difference!**

From Autumn 2005 **Oxford Scholarship Online** ([www.oxfordscholarship.com](http://www.oxfordscholarship.com)) subject collections and titles in the new **Oxford Digital Reference Shelf** ([www.oxfordonline.com/digitalreference](http://www.oxfordonline.com/digitalreference)) will be available on a perpetual access basis for a one-off fee. Unlimited user licences and remote access are available as standard, and libraries can choose to self-host the content or, for a small access fee, opt for OUP hosting and enhanced functionality. MARC21 records are also available free of charge.

### **Come and visit us to hear more about these exciting developments!**

Visit [www.oxfordonline.com](http://www.oxfordonline.com) for details about our full portfolio of prestigious online resources.

## **ProQuest**

A joint venture between the IT industry's leading publishers, O'Reilly & Associates, Inc. and Pearson Technology Group, Safari offers online access to the books you need, when you need them.

Safari, exclusively distributed by ProQuest Information and Learning, recently announced it had added its 3,000<sup>th</sup> book to its extensive e-learning library, Safari<sup>sm</sup> Tech Books Online<sup>sm</sup>.

Safari Tech Books provides IT students, lecturers, programmers and managers with online access to over 1,000 IT books, frequently before they are available in print.

Safari has also recently launched Safari<sup>sm</sup> Business Books Online<sup>sm</sup>, with over 500 books covering a wide range of critical business skills.

## **Springer**

Springer Online e-Books collection offers online delivery of over 2,000 current works in the scientific, medical and technical (STM) fields. Springer's IP-enabled e-Book gateway provides security and manageability no matter what size the patron base. Features like full text searching across the entire collection, MARC records, and usage statistics provide access to a 'database' of over 600,000 searchable pages which integrate into your online public access catalogue (OPAC) and give patrons an unparalleled online reference tool.

Springer Online e-Books can help keep library collections current and readily accessible. The Springer Online e-Books institution-friendly licences and pricing make it easy to meet user need, whenever asked.

## **Taylor & Francis**

For two centuries Taylor & Francis has been fully committed to the publication of scholarly information of the highest quality, and today this remains the primary goal. Our renowned e-book publishing programme encompasses the imprints Routledge, Taylor & Francis, Europa Publications, Garland, RoutledgeFalmer, Spon Press, Psychology Press and Brunner-Routledge.

The eBookstore features a premium collection of titles that you can buy in the current popular formats. Our eSubscribe and DX Portable services provide the convenience of online and offline subscriptions. Besides outright purchases and subscriptions, our ePrint, eCopy and eCompile services bring the advantage of cost-effective page/chapter micro-purchases of content.

## **Thomson Gale**

Thomson Gale is a world leader in reference publishing for libraries. Best known for its accurate, authoritative and accessible content, the company creates and maintains more than 600 electronic databases including its e-book offering, Gale Virtual Reference Library.

Visit our stand for an overview of Gale Virtual Reference Library, including details of pricing models, content and functionality, all of which have been developed following extensive consultation with libraries worldwide. There will also be the opportunity to view the new Thomson PowerSearch interface, which has cross-searching capabilities and simplified navigation.
